👤 PROFILE

Driven by a deep commitment to creating seamless, user-focused experiences, I bring a designer's eye for detail and an analyst's strategic insight to craft digital products that feel as intuitive as they are impactful.

With a foundation in fashion design, I've transitioned to UX with an expertise in aligning aesthetic appeal and user functionality—mapping user flows, defining personas, and building cohesive systems with data-driven approaches. My experience spans from collaborating with cross-functional teams in high-paced environments to managing stakeholder expectations and designing for compliance, all while keeping a strong focus on usability and intuitive design

ux WORK EXPERIENCE IN UX

UX/UI INTERN Business Development Bank of Canada (BDC)

May – Aug 2024

- Benchmarked self-service banking features and adapted them for business loan services.
- Expanded and documented the design system (slider, pagination, file upload, accordion, etc.), collaborating with developers (HTML/Storyboard, Angular) and QA'ing deliverables.
- Researched loan calculators, adapting industry practices to BDC's straight-line loan model.
- Synthesized user test results on new product pages and calculators, presenting insights to improve customer experience.

UX/UI INTERN Angler AI - Prospective Data Platform

Sept - Oct 2023

- Collaborated with the Co-Founder/CTO to create new pages on the Angler AI web platform.

UX/UI INTERN Hit The Books - Tutoring

Jul - Sept 2023

- Collaborated with the Co-Founder/CTO to create new pages on the Angler AI web platform.
